Detailed Action

Response to Amendment

1. Applicant's Remarks/Arguments filed on 4/4/2008 regarding claims 32-59 have been fully considered. Claim 1-31 have been canceled by the Applicant. Claims 32-59 are currently pending.

EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

The present application relates to providing a method for aggregating a plurality of physical lines connecting adjacent nodes in an optical network that utilizes signaling and routing protocol, including the unique steps of:

“wherein said first and second of said plurality of physical lines are associated without affecting traffic and if one of said at least said first and second of said plurality of physical lines fails, performing local span restoration within said first aggregated link.”

The closest prior art, Iwata (USP 5,687,168), discloses a method for dynamically abstracting/aggregating a plurality of links connected between ATM nodes, and for exchanging and updating link state information among the ATM network nodes. However, Iwata fails to anticipate or render obvious the above quoted limitations of the present application. This renders the claims allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
